## Here is an example of how to use this price matrix

Please note the above matrix is for painting one or more panels only,  
If your panel is damaged or dented use the helpful diagram below to estimate the size of damage and then add the cost to the paint matrix above.

To paint a door on a Medium size vehicle with a dent the size of an apple

**Door £288 + £42 = £330**

Any parts needed will be added at retail costs.
